

STOP & STAY STOPPED

From the Minnesota School Bus Operators Association

Anyone who gets behind the wheel of an automobile, new or veteran has experienced navigating near a school bus during their travels. But, how many drivers know exactly what the different light signals mean?

This video outlines common mistakes made by careless driving that can lead to unnecessary bus accidents. Drivers that follow school bus stopping laws are crucial in keeping children safe during their travels to and from school.

Stop and Stay Stopped clearly illustrates the basics of bus safety laws and gives the facts drivers need to be informed and safety conscious around school buses.
